Detailed Statistical Tables 99 әбед

Table 7-11. Expanditures for needed capital projects to construct science and engineering research facilities, as identified in an institutional plan, at predminantly undergraduate institutions; by institution type and field: 1994 [Current dollars in millions]

Field	Nondoctorate HBCUs	Comprehensive universities	Liberal arts colleges
Total	75.2	26.4	97.1
Engineering	19	10.9	0
Physical sciences	17.9	4	37.8
Environmental sciences	0	0	5.9
Mathematics	2.3	0	1.5
Computer sciences	ప.ప	0.6	1.6
Agricultural sciences	0.4	0	0
Biological sciences	16	ა.5	14.9
In universities and colleges	16	3.5	14.9
In medical schools	0	0	0
Medical sciences	8	0	0
In universities and colleges	8	0	0
In medical schools	0	0	0
Psychology	0.2	0.6	29.8
Social sciences	8	6.8	0
Other, not elsewhere classified	0.2	0	5.6
¹ The Carnegie Classification of Institutions of Higher Education is used to distinguish between two different groups of predominantly undergraduate institution universities, those that offer a liberal arts program along with other programs such as engineering, business administration, or nursing; and liberal arts colleges award bachelor's degrees and that grant more than half of their degrees in the liberal arts.	r Education is used to distinguish betw along with other programs such as eng an half of their decrees in the liberal ar	een two different groups of predomin lineering, business administration, or n ts.	of predominantly undergraduate institution stration, or nursing; and liberal arts colleges

award bachelor's degrees and that grant more than half of their degrees in the liberal arts. ges, those tions: com

NOTES: In order to obtain an estimate of needed funding, institutions were asked to report whether an approved institutional plan existed that included "any deferre requires repair/renovation or new construction." Four criticial were used to define deferred space: (1) the space must be necessary to meet the critical needs of au programs; (2) construction must not be scheduled to begin during fiscal years 1994-1995; (3) construction must not currently have funding; and (4) the space must not currently have funding; and (4) the space must not currently have funding; and (4) the space must not currently have funding; and (5) the space must not currently have funding; and (6) the space must not currently have funding; and (7) the space must not currently have funding; and (8) the space must not currently have funding; and (9) the space must not currently have funding; and (9) the space must not currently have funding; and (9) the space must not currently have funding; and (9) the space must not currently have funding; and (9) the space must not currently have funding; and (9) the space must not currently have funding; and (9) the space must not currently have funding; and (9) the space must not currently have funding; and (9) the space must not currently have funding; and (9) the space must not currently have funding funding

developing new programs or expanding the number of faculty.

Dollar amounts are reported in current dollars, unadjusted for inflation. See table A-5 in the Technical Notes for the inflation adjustment used in Volume I of this report

KEY: "HBCUs" = Historically Black Colleges and Universities
